

Lollipops Weekly Activity Plans

Topic of Interest:
Things That Go!
in the air

This week in our Lollipop room we will begin to explore things that go in the air. We will focus on airplanes, hot air balloons and helicopters. Please be aware we are planning to have a water play day on Tuesday, June 20th. Remember to apply sunscreen before arriving to school and bring your child dressed in his/her bathing suit with sandals or water shoes.

Week of:
June 19 - 23

Goals and Objectives:

- Match similar objects, begin to identify shapes, begin to count to 6, begin to sort objects
- Listens and understands language, comprehends and responds to books, follows directions
- Demonstrates fine-motor strength and coordination, demonstrates balance and coordination
- Explore the visual arts, begin to identify types of air transportation

	Monday	Tuesday	Wednesday	Thursday	Friday
Mathematics	Count and sing along to 10 little airplanes	Water Play Day! Pouring water into various sized containers	Making simple patterns and sorting with hot air balloons	Color matching airplanes	Music class with Ms. Kathy Count and sing along to 10 little airplanes
Language and Literacy	Sing, I'm a little airplane 	Read, <i>Yellow Copter</i> by Kersten Hamilton	Look at the pictures in a nonfiction book about hot air balloons and talk about what we see	Sing, the airplane sing along song	Sing, I'm a little airplane
Physical	Building a giant airplane with our playground blocks	Water Play Day!	Playing with playdough	Throwing paper airplanes	Cotton ball clouds sticky wall fine motor activity
Art, Science, Sensory Experiences	Airplane in the sky sponge paint art	Exploring airplane inspired sensory bags	Team work Activity! Hot air balloon process art 	Airplanes and shaving cream sensory play	Airplane sticker collage

Notes and Reminders: Friday, June 30th is our end of the year celebration beginning at 10am.

Home-School Connection Ideas: Transportation is a wonderful topic for toddlers to explore because it is around us constantly. You can have discussions with your child about the different types of vehicles you see while driving or taking walks. You could talk about the variety of shapes, colors and sizes. Or how fast or slow someone is driving.
